

## Product Information Focus 260

### The Dynaudio Focus 260

**Cohesively balanced like a compact monitor, but exhibiting the substance and power of a floor-standing loudspeaker. The Focus 260 features a dual mid/bass driver complement, comprised of two MSP mid/woofers equipped with the advanced new black Kapton® voice coil formers and die-cast aluminum driver baskets, built into a relatively large cabinet volume.**

A perfect sonic integration with the Dynaudio soft dome tweeter, which features the new Precision Coating, is achieved via the high-grade high-performance 1st order crossover. Due to the relatively slim cabinet, which stands less than one meter tall, an ideal sound radiation is ensured – even at short listening distances.

The Focus 260 thus combines the same excellent speed, expansive soundstage, incredibly natural musicality and extremely accurate and homogenous balance of the compact Focus 160 with added low-bass dynamics and presence, and is perfectly suited for medium to larger sized rooms.

- Coated 28 mm soft dome tweeter with Precision Coating for natural, clean and clear highs
- Two 17 cm MSP Mid/woofers with 75 mm aluminum voice coil for deep, precise bass down to 32 Hz
- New slim-line die-cast aluminum baskets for increased rigidity and lower resonance
- Aluminum wire voice coil on new black Kapton® coil former for increased power handling
- 1st order crossover with 6 dB slope for perfectly linear phase coherence
- Highest quality crossover components for absolute sound neutrality

### Technical Specifications

Sensitivity	87 dB
IEC Power Handling	250 watts
Impedance	4 ohms
Frequency Response (+/- 3 dB)	32 Hz – 23 kHz
Int. Cabinet volume	36 litres
Bass Principle	2 Way Bass Reflex
Crossover Frequency	2000 Hz
Crossover Slope	Woofer: 6 dB/oct Tweeter: 12 dB/oct
Weight	19.1 kg
Dimensions (W x H x L)	202 x 992 x 294 mm
