

## SmallPod Active Bluetooth

### Stylish wireless active speaker system

The addition of Bluetooth wireless connectivity makes the SmallPod Active Bluetooth speaker one of the most versatile in the Scandyna range.

By simply 'pairing' the SmallPod Active Bluetooth speakers with any Bluetooth-enabled device, such as a smartphone, PC or tablet, music can be wirelessly 'streamed' for added convenience at no loss of quality.

As Bluetooth technology is compatible with most mobile devices, there is plenty of flexibility when upgrading, so users are not limited to a particular brand.

## Technical specifications

### Use it with:

Smartphones  
iPod  
iPad  
iPhone  
Tablets  
PC  
MAC  
TV
